Fahlgren N, Gehan MA, Baxter I ()  
 Lights, camera, action: high-throughput plant phenotyping is ready for a close-up. Current Opinion in Plant Biology 24: 93 – 99

## The Phenotyping Bottleneck

We need high throughput phenotyping systems adapted and available to phenotype the national germplasm.

ESFRI

## **EMPHASIS-PT – Collaboration Agreement (12 parties) (12 January 2022)**

- Phenotyping networks (EPPN, IPPN, EMPHASIS) are excellent tools to foster collaboration and capacity building, and to provide very specific phenotyping solutions. But they cannot substitute national facilities.

## **PORTUGUESE ROADMAP OF RESEARCH INFRASTRUCTURES – 2020 Update**

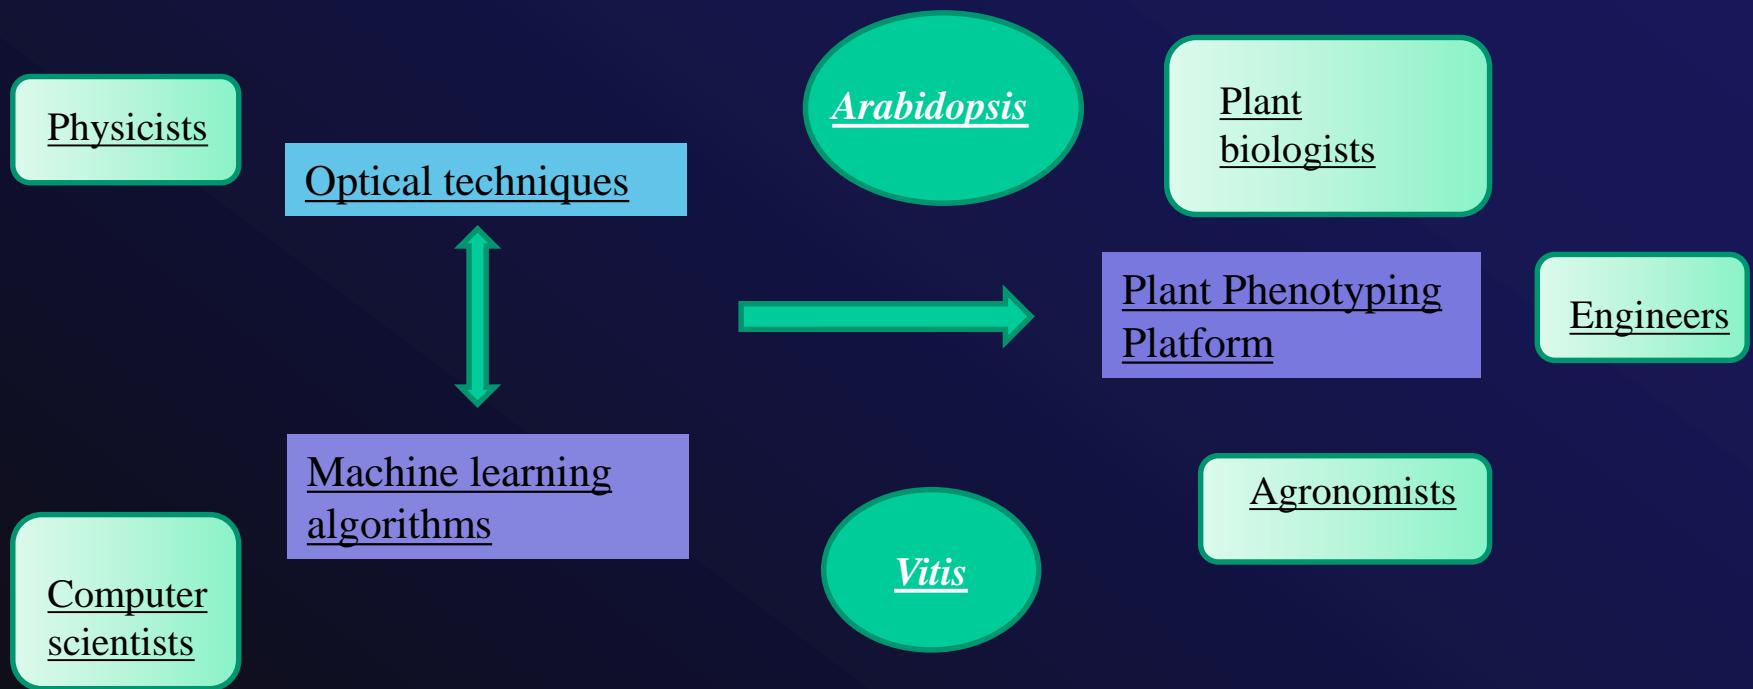

FCT – Fundação para a Ciéncia e a Tecnologia

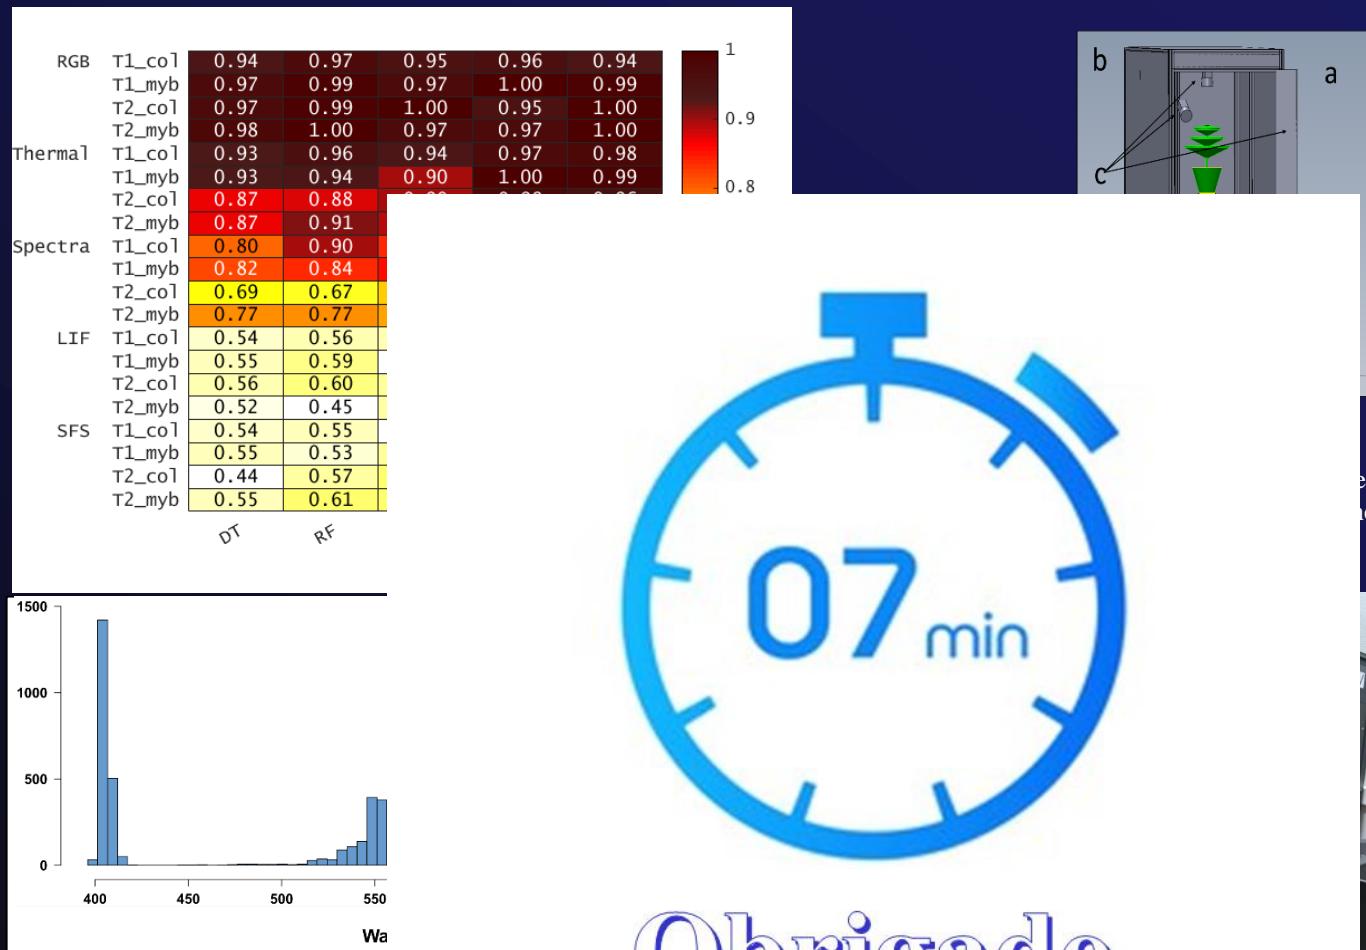

### **PhenoPlant-PT – a distributed Infrastructure - 11 partners**

# The INTERPHENO project

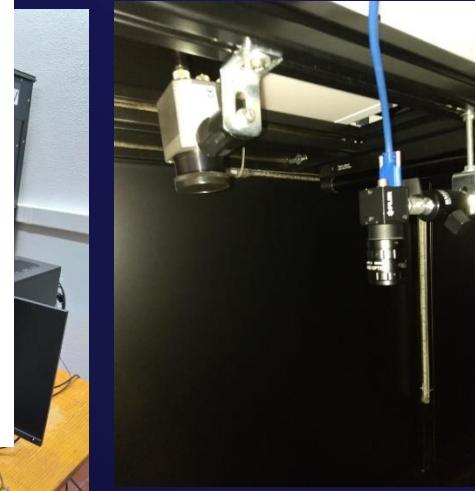

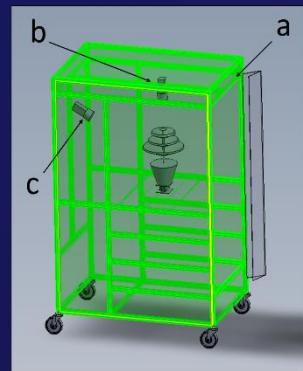

Fostering High Throughput Plant Phenotyping by an Interdisciplinary Approach

FCT Funded Project 240 K€

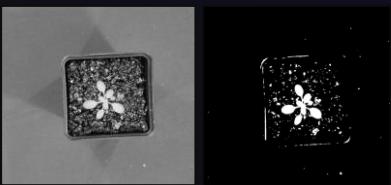

RGB and thermographic cameras (a) and thermal camera (b) are represented; c) Diffuse reflectance spectra of leaves in the solar spectrum, with UV range

# Obrigado
